The story so far...

Last time, Masashi and the others noticed an increase in the appearances of phantoms near where they live, which led Masashi to consider the reason that all four of them were left behind. Incidentally, while reminiscing about the past, Masashi notices the common thread linking the four of them. Could it possibly explain humankind's disappearance?

TM, ANNA AND KIYOMI ARE THE SAME AGE, SO KIYOMI DOES NOT USE THE DIMINUTIVE AND ENDOWING HONORIFIC "-CHAN" FOR ANNA. INSTEAD, SHE USES "-SAN" WHICH COULD CONNOTE A CERTAIN AMOUNT OF DISTANCE AND/OR RESPECT.

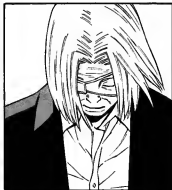

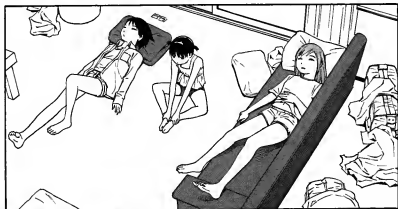

FN: THE PERSON WHO DOES THE SEEKING IN HIDE-AND-SEEK IS "IT." THE JAPANESE REFER TO THIS PERSON AS THE "ONI," WHICH ROUGHLY TRANSLATES TO OGRE (OR SOMETIMES DEMON). WHEN KIYOMI SAYS THAT HER OLDER BROTHER (ONI) IS IT (ONI), THIS IS INTENDED BY HER AS A BIT OF A PUN. SHE IS ASKING IF HER "ONI" WILL BE THE "ONI." NOTE THAT ONI (鬼) AND ONI (鬼) DO NOT USE THE SAME KANJI, SO THE PUN IS PURELY PHONETIC.

Hello everyone! Things get serious as we reach the climax of this story! Soon, all will be revealed about the the phantoms secret. Look forward to it in the coming chapters. I can't say much as it would detract from the story and it's impact.

As always, thank you for your patience with regards to the general slowness of my releases. I've got the next chapter translated and hope to typeset it this week. Look forward to its release!
